Motivated and enthusiastic Fourth-year Computer Science student at New Generation University College with a strong passion for Frontend Development and UI/UX design. Skilled in building responsive, user-friendly web applications using HTML, CSS, JavaScript, and React. Experienced in developing academic and personal projects while continuously expanding my knowledge through the ALX Frontend Development program. I am eager to apply my technical skills, creativity, and problem-solving abilities in a Frontend Developer Internship and contribute to real-world software projects.

EDUCATION

Bachelor of Science (B.Sc.) in Computer Science
New Generation University College – Addis Ababa, Ethiopia

Current Status: Third-Year Student(3rd)
Expected Graduation: 2027

Relevant Coursework

- Data Structures and Algorithms
- Object-Oriented Programming
- Database Systems
- Web Development
- Software Engineering

TECHNICAL SKILLS

Programming Languages

- HTML5
- CSS3

- JavaScript (ES6+)

Frontend Development

- React.js
- Responsive Web Design
- Component-Based Development

UI/UX

- Figma (Basic)
- Wireframing

- Responsive Design Principles

WordPress Website Developer — ABEM Academy Website

Project-Based Experience | 2026

- Developed and customized a school website using WordPress, Elementor, and the Astra theme.
- Designed and organized website pages, including Home, About Us, Academics, Activities, and Contact.
- Customized website layouts, colors, typography, navigation menus, and footer styling to match the school's branding.
- Integrated plugins and configured a contact form to support communication between parents and the school.
- Improved website usability and responsive layout for a better browsing experience.
- Troubleshot page display issues, navigation errors, and plugin configuration challenges.

Technologies: WordPress, Elementor, Astra Theme, Royal Kit, MetForm, HTML, CSS.

Tools & Technologies

- Git
- GitHub
- Visual Studio Code
- Vite
- npm
- REST API Integration
- Local Storage
- Form Handling

PROJECTS

City Complaint Management System

Academic Project

- Developed a responsive web application that enables citizens to submit and track city service complaints.
- Designed reusable React components and responsive user interfaces.
- Implemented clean layouts and intuitive navigation to improve user experience.

Flight & Hotel Booking Website

- Developed a responsive travel booking website using React. • Designed user-friendly interfaces for searching flights and hotels. • Implemented REST API integration concepts and reusable frontend components.

Beauty Salon Booking Website *(Currently Developing)*

- Building a responsive beauty salon booking platform using React. • Implementing appointment scheduling and service selection features. • Designing reusable UI components with a focus on usability and responsiveness.

To-Do List Application

- Developed a task management application with Create, Update, Delete, and Complete functionalities.
- Implemented Local Storage to preserve user tasks.

Calculator Application

- Built a responsive calculator using HTML, CSS, and JavaScript. • Implemented arithmetic operations and interactive user interface functionality.

CERTIFICATIONS

ALX Africa

★ Frontend Development Certificate

Udacity

★ Programming Fundamentals Certificate

CAREER INTERESTS

- Frontend Web Development
- React.js Development
- UI Development
- UX Design
- Responsive Web Design
- JavaScript Development
- Software Engineering

SOFT SKILLS

- Problem Solving
- Analytical Thinking
- Communication
- Team Collaboration
- Time Management
- Adaptability
